

11 February 1975

George Carver:

OMB representatives are to meet with me on Thursday, 13 February, to discuss our progress toward accomplishment of the DCI's "Objectives" for FY-1975 and our tentative proposals for FY-1976 "Objectives."

Attached is our draft of proposed "substantive" objectives for FY-1976.

They are changed in only relatively minor ways from the FY-1975 set, and reflect, in part, comments provided by the NSCIC Working Group members at the session you attended on 29 January.

If we could have your reaction to this set of objectives by close of business on Wednesday, 12 February it would be much appreciated.
